INTRODUCTION

Service to public is our motto. You all know well about the services being rendered by the Fire Service Department during emergency times.

During French region, the Fire Services was commissioned as a branch of Police Department. Till 1981, this Department functioned as one of the ingredients of Police Department. It was segregated from Police Department and attached with the Local Administration Department in the year 1981. In 1984, it was separated from the Local Administration Department and functioning as a separate Department under the control of Secretary to Government (Fire Service).

ADMINISTRATION

The Divisional Fire Officer is functioning as technical head of the Fire Service Department. The Fire Service Department started its services in 1956 with 2 Fire Stations one at Puducherry and the other at Karaikal. Now, it is functioning with four regions of Union Territory of viz. Puducherry, Karaikal, Mahe & Yanam. In Puducherry region nine numbers of Fire Stations, Two numbers in Karaikal, One each at Mahe and Yanam. Totally Thirteen numbers of Fire Stations are functioning in UT of Puducherry namely Puducherry, D' Nagar, Bahour, Villianur, Madukarai, Thirukkanur, Thirubuvanai, Kalapet, Sedarapet, Karaikal, Surakudy, Mahe & Yanam. Each Fire Station is headed by one Station Officer / Officer in-charge. A Station Officer and Fire Service Personnel crew on duty at the respective Local Fire Station (LFS) will be the first responder for all types of Fire Calls/Special Service Calls/Emergencies which include natural and manmade disasters.

There are two sub-divisions namely North & South each under the control of respective Assistant Divisional Fire Officer for operational and administrative duties. In order to ensure effective command and control, the Fire Stations which are grouped under the command of Asst. Divisional Fire Officer are as detailed below:

Sub-Division headed by the ADFO	Name of the Fire Station
Assistant Divisional Fire Officer (North)	Puducherry, Dhanvantri Nagar, Villianur, Kalapet, Sedarapet, Yanam & Fire Prevention Wing
Assistant Divisional Fire Officer (South)	Bahour, Madukarai, Thirukkanur, Thirubuvanai, Karaikal, Surakudy & Mahe

A separate Fire Prevention Wing headed by one Station Officer is functioning in the Office of the Divisional Fire Officer premises attached in order to carry out the following functions:-

- (i) Inculcate the public on fire prevention measures by propaganda through radio, TV, Press (Audio and Video).
- (ii) Based on the request from various Departments and industrial establishments to ensure Fire Safety, testing of fire appliances and equipments and advise them regarding fire prevention and protection measures to be adopted as per the recommendation of this Department.
- (iii) The built in fire protection arrangements are insisted at the planning stage itself and ensured by this Department for the buildings like Hotels, Cinemas, Trading Centers etc., where public are assembled.

The Fire Service Week is observed from 14th April to 20th April as an annual feature throughout this Union Territory. The theme for every year was given wide publicity by depicting it through posters, folders, hand bills, cinema slides. Various steps are taken to inculcate the sense of fire prevention amongst the citizens by demonstration, radio and TV programmes which are arranged for a period of 1 week.

In order to make people aware of the fire prevention methods, demonstrations on fire prevention and rescue operations are conducted in various centers and advertisement released in mass media. Essay competitions were conducted on fire prevention among the school children and prizes were awarded to them.

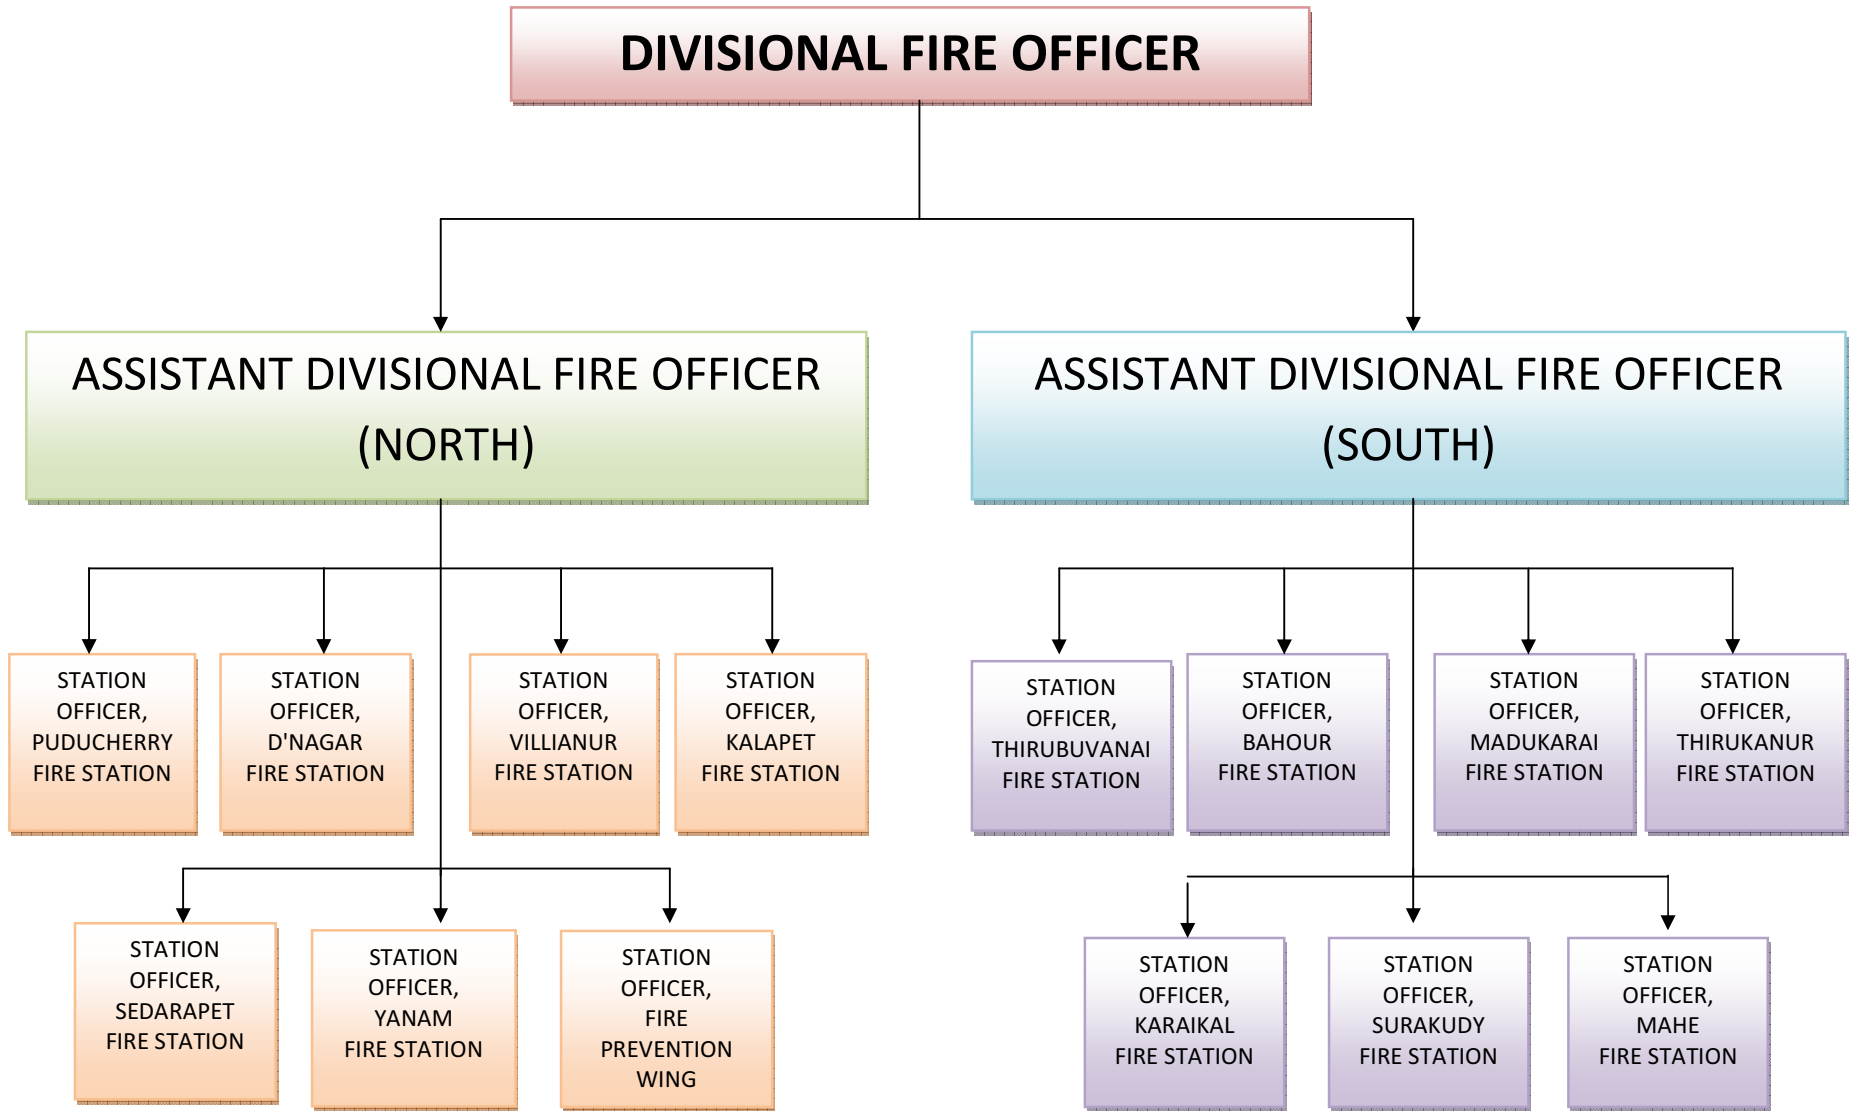

In case of Fire/Emergencies, public may contact on the Telephone numbers given against the respective Fire Stations:-

ORGANIZATION CHART

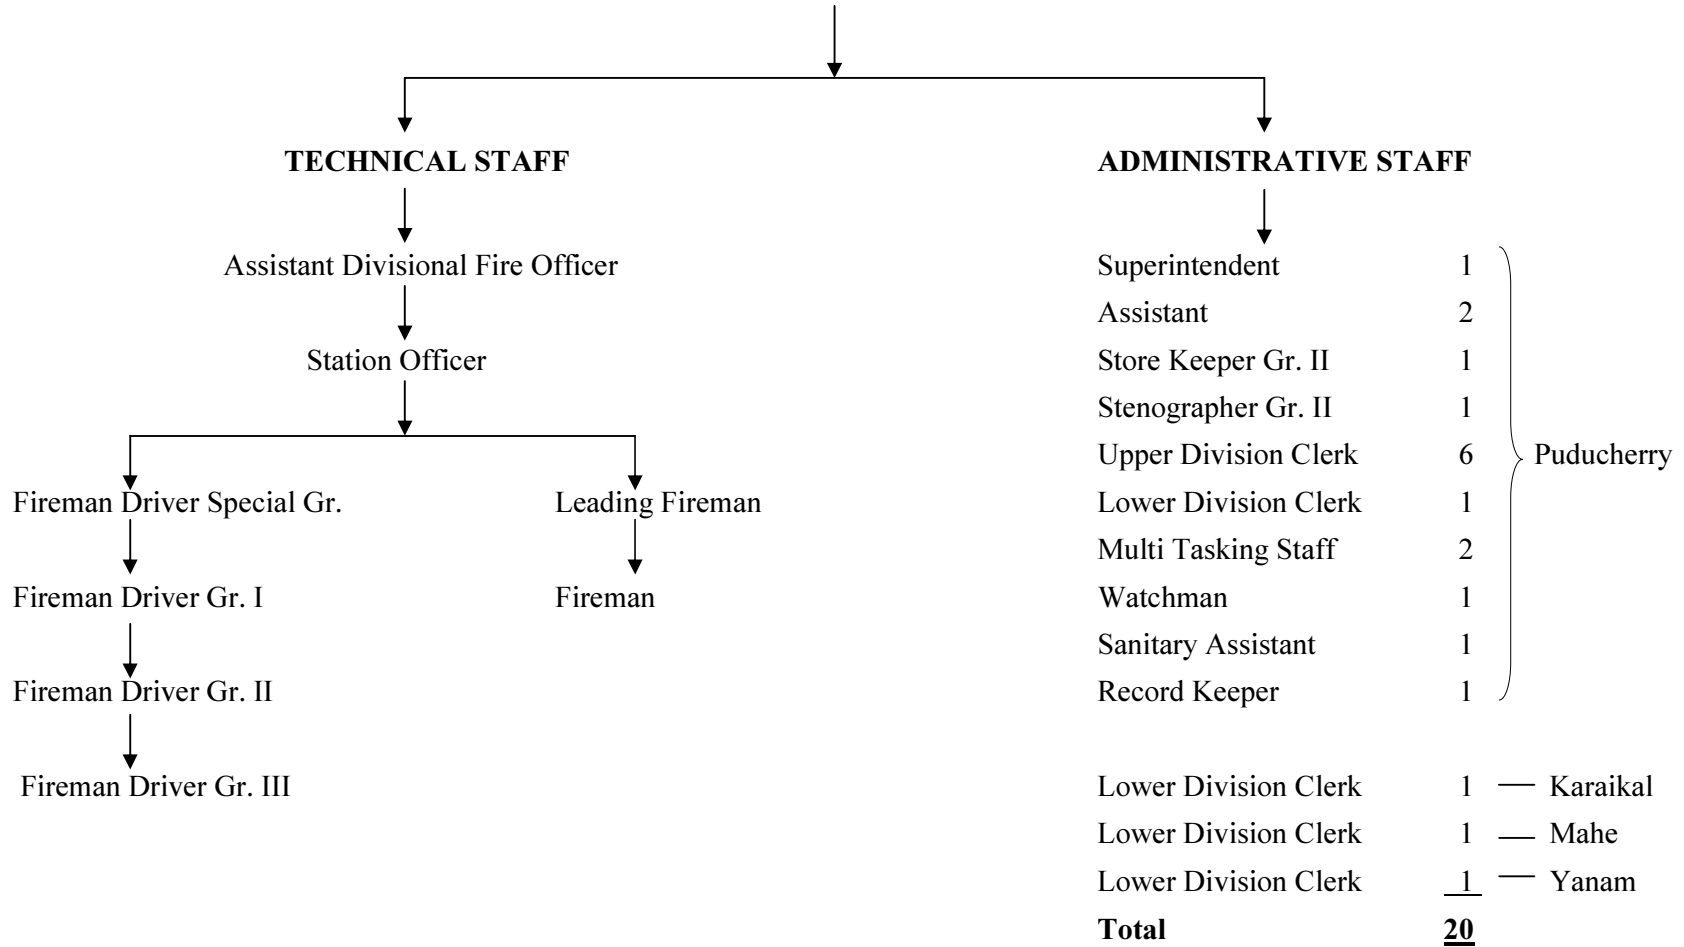

The organization chart shows the Command structure of the department.

ORGANIZATION CHART

ORGANISATION CHART

DIVISIONAL FIRE OFFICER

FUNCTIONING OF THE DEPARTMENT

The Service of this Department is available to the public round the Clock. “We Serve to Save”. “Service before self” are the main aim of this Department. The basic objective of the Fire Service is protection of life and property of the public. This Department was declared as a First Responder cum Stock Holders.

The Fire Service is rendering the following services to the public:

- (1) Rescue the life and property of the people from devastating fire.
- (2) Search and Rescue people from natural calamities and manmade Disasters.
- (3) Inculcate the public on fire prevention and ensure proper fire safety arrangements.
- (4) Help the affected people to resume their normal life.
- (5) Special Services – Deployment of Fire Service personnel with Fire Fighting Tenders as Fire Safety precautions during public gathering at the time of Kumbabishegam, Exhibition, Circus and VVIP’s visit.
- (6) Attending Special Service Calls such as Rescuing person from Well, Ponds, Lake etc. removing of Wasp Combs, Rescue of Animals, clearing of Oil spillages on roads to avert accidents etc.
- (7) Issue of No Objection Certificate / Recommendations for grant of license to trades and industries involving fire risk.

1. **Rescue the life and property of the people from devastating fire:-** The main aim of the Department is to save the life and property of the people from devastating fire.

Control Room/Watch Room are functioning and manned round the Clock in two shifts in all the Fire Stations to receive calls and information about the outbreak of fire. All Fire Stations are provided with telephone facility for receipt of fire message by telephone or through messenger. The person receiving the call shall take down the correct particulars such as location of the fire, the time of its outbreak, its nature and

location of the spot in case of Special Service Call etc. and turn out the available appliances with the crew and arrange to rush to the spot. The person in-charge of the Control Room/Watch Room will also make necessary arrangements for reinforcement of additional fire units according to the nature of fire and Special Service and inform the concerned officials for further action.

Firemen are kept alert and ready to move at any time within no time on the receipt of information about the outbreak of fire. The first 30 seconds after the outbreak of fire are most crucial. An average fire is likely to be 10 times bigger after 2 minutes and 50-100 times bigger after 4 minutes than what it was the end of 2 minutes. One will be surprised to know that the fire units are turned out to respond the fire call within fraction of minutes. i.e. within 60 seconds on receipt of information.

2. **Rescue of people from natural calamities:-** This Department is rendering selfless services during natural calamities. The Fire Service Personnel evacuate people from the low lying areas/flood affected places and building collapses etc., round the clock at the time of cyclone and heavy rain from the affected area.

3. **Special Duties – Stand by duties:-** This Fire Service is sending vehicles and crew for standby duties as fire safety precautions during public gatherings at the time of Kumbabishegam, Exhibition, Circus and VVIP's visit etc.

Sl. No.	List of Services	Charges for services if any If no charges is to be received please mention it FREE	Designed Officer	Stipulated time for designated officer
1	2	3	4	5
1	Standby duties to religious (temple) functions, VIP's visit on different occasions viz. Elections, and other government functions etc.	<u>Non government</u> Rs. 1.50/- per K.m. & Rs. 10/- per day <u>Government</u> No charges	Station officer's concern and their crews deployed	No time limits according to emergency
2	Fire calls attended in other states	Fuel charges will be collected according to the consumption level.	Station officer's concern and their crews deployed	No time limits according to emergency

4. **Recommendations for the issue of licence to industrial establishments:-** The licensing authorities, District Magistrate, Commissioner of Municipalities and other agencies are consulting Fire Service Department before issue of licence for all the trades and industries involving fire risk and issue of licence. The Fire Service Department after actual inspection of the premises and suggesting proper fire fighting arrangements to the concerned, issue 'No Objection Certificate' to the licensing authorities after ensuring the fire safety.

5. **Help people to restore their normal life:-** The responsibility of the Fire Service do not end with fire fighting. They also help people to restore their normal life as follows:

- (1) Recording correct name and address of the victim and recommend them for getting relief from Government and other agencies.
- (2) Issue Fire Accident Certificate so as to enable the people to obtain the following:-
 - (i) Fresh policy from Electricity Department to resume power connection.
 - (ii) Duplicate ration cards other identity cards issued by the Government.
 - (iii) Duplicate documents of property / Assets etc.
 - (iv) To exchange the half burnt currencies from bank.
 - (v) Duplicate identity cards other proof of identities etc.
 - (vi) Recommends getting loan from bank and other agencies to restore normal life and rebuild the burnt house.
 - (vii) To get fire insurance claim, etc.

APPLIANCES/EQUIPMENTS

Every Fire Station is provided with one or two Fire Engines of the appropriate category and an Ambulance. Various types of articulated appliances are available with the department viz., Water Tender, Emergency Tender, Rescue Tender, Foam Tender, Feeder Unit, Small Fire Engine, Ambulance besides the life saving equipments Chain Saw operated by power, Portable Chain Saw, Circular Saw, Insect Protection Suits, Life Buoy & Life Jackets, Aluminium Suits, Inflatable Lighting Tower, Breathing Apparatus Sets etc.

FIRE PREVENTION ACTIVITIES

Fire Accidents don't just happen. They are caused. Whatever may be the reason for fire, but the real cause behind every fire outbreak is carelessness, negligence or even ignorance on the part of the people. If we are careful, the fire accidents could be avoided. The spread of fire could be controlled and loss minimized.

Fire prevention means the efforts for eliminating the outbreak of fire by adopting all possible precautionary safety measures. Fire prevention is considered even more important than fire fighting itself. The scope of fire prevention is not only limited to industries but it is equally important to all the establishments like Shops, Schools, Hospitals, places for Entertainment, like Multiplex, Theatres, Hotels, Malls, Marriage Halls etc.

Fire has always been a serious hazard with devastating results. Fire destroys the life of people and property earned with persistent efforts and sacrifice in a moment of carelessness causing loss of life, injuries and heavy damage. The loss due to fire cannot be replaced. The fire accidents with devastating results could be avoided if we are careful.

FIRE PREVENTION IN INDUSTRIES

Fire accidents has always been a serious hazard in industry and other identified areas with devastating results causing loss of lives, injuries, heavy damage to national property. To become aware of fire risk is the first step in applying the fire prevention.

The workers and the Dwellers / Occupants are trained to identify the reasons for fire outbreak, how to avoid fire risk, how to save themselves from fire, how to call Fire Service, how to use fire extinguishers, how to save others from fire etc. fire fighting training (Mock Drills) and demonstrations are conducted to them.

The fire appliances must have to be checked at periodical intervals by a competent Fire Officer. Proper fire safety arrangements and its authentications are ensured by the Fire Officers concerned.

FIRE PREVENTION IN URBAN AND RURAL

The fire risk lurks mostly in kitchen and usage of combustible materials. In order to avoid fire risk, the kitchen should be kept neat and clean. Highly inflammable oil and other things should be kept away from stove. Stove should not be placed under low roof thatched shed. While cooking, using of synthetic and fiber clothes should be avoided. Only cotton clothes should be used. It is safer to use apron while cooking. Cook with care in gas stove. Vegetables to be cooked should be kept ready before igniting the stove. While using gas stove turn on the burner knob only after striking a match. After use shut both cylinder valve and burner knob every time. Children should not be allowed to play in kitchen with matches. Burning matchsticks should not be thrown here and there. Children should be advised to burn crackers outdoor alongwith Elder for safety. Avoid placing kerosene stoves on the ground. Huts should be erected at intervals. Avoid storing wastes near huts.

FIRST-AID SEVERE BURNS

For severe burns pour cold water over burns till the pain subsides and cover with a clean cloth and refer to a Doctor.

DUTIES OF PUBLIC

In case of fire on your dress, don't run. Better roll on the ground. It helps to pour cold water over the burns till the pain subsides. Don't apply any ointment without medical advice. For severe burns, cover with a clean cloth and refer to a Doctor.

As and when fire outbreaks, try to extinguish it with the available means and inform the nearby Fire Service Station (Toll Free: 101) simultaneously. Give way to the fire fighting vehicles and its crew / unit. Help the Fire Service personnel by giving right particulars of address and availability of water sources and the nature of the house of fire, number of persons in the house and things inside, etc. so as to enable the Fire Service personnel to control the risk at their best.

HOW TO APPLY FOR FIRE CERTIFICATE

For obtaining certificate regarding the involvement of the premises in the actual fire accident, written application should be submitted to the concerned Station Fire Officer. On receipt of application, the certificates will be issued within stipulated time.

CONCLUSION:

Whatever burnt never returns. The economy of the nation is in the hands of every citizen. The inherent fire risk posed cannot be ignored. We should be very careful and cautious to overcome the fire risk. If we are unprotected, fire will result in irreparable loss of high magnitude rendering all combined efforts futile for attaining self-sufficiency in some sensitive spheres thus making indelible dent on the activities for the development of the nation. If we are careless to allow fire to hinder our development, there is no alternate except agony.

Be alert !

Prevent fire !!

Develop the economy of the nation !!!
